

DUSP3 Antibody (C-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP8446a

Specification

DUSP3 Antibody (C-term) - Product Information

Application	WB, IHC-P, FC,E
Primary Accession	P51452
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	20478
Antigen Region	157-185

DUSP3 Antibody (C-term) - Additional Information

Gene ID 1845

Other Names

Dual specificity protein phosphatase 3, Dual specificity protein phosphatase VHR, Vaccinia H1-related phosphatase, VHR, DUSP3, VHR

Target/Specificity

This DUSP3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 157-185 amino acids from the C-terminal region of human DUSP3.

Dilution

WB~~1:1000
IHC-P~~1:10~50
FC~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

DUSP3 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

DUSP3 Antibody (C-term) - Protein Information

Name DUSP3

Synonyms VHR

Function Shows activity both for tyrosine-protein phosphate and serine-protein phosphate, but displays a strong preference toward phosphotyrosines. Specifically dephosphorylates and inactivates ERK1 and ERK2.

Cellular Location

Nucleus

DUSP3 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

DUSP3 Antibody (C-term) - Images

Western blot analysis of DUSP3 (arrow) using rabbit polyclonal DUSP3 Antibody (C171) (Cat. #AP8446a). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the DUSP3 gene.

DUSP3 Antibody (C-term) (Cat. #AP8446a) immunohistochemistry analysis in formalin fixed and paraffin embedded human breast carcinoma followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of DUSP3 Antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.

DUSP3 Antibody (C-term) (Cat. #AP8446a) flow cytometric analysis of 293 cells (right histogram) compared to a negative control cell (left histogram). FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

DUSP3 Antibody (C-term) - Background

DUSP3 is a member of the dual specificity protein phosphatase subfamily. These phosphatases inactivate their target kinases by dephosphorylating both the phosphoserine/threonine and phosphotyrosine residues. They negatively regulate members of the mitogen-activated protein (MAP) kinase superfamily (MAPK/ERK, SAPK/JNK, p38), which are associated with cellular proliferation and differentiation. Different members of the family of dual specificity phosphatases show distinct substrate specificities for various MAP kinases, different tissue distribution and subcellular localization, and different modes of inducibility of their expression by extracellular stimuli. The gene for this protein maps in a region that contains the BRCA1 locus which confers susceptibility to breast and ovarian cancer.
