

### **NGFR Antibody**

Rabbit mAb Catalog # AP90442

## **Specification**

#### **NGFR Antibody - Product Information**

Application WB, IHC, ICC, IP

Primary Accession P08138
Reactivity Rat

Clonality Monoclonal

**Other Names** 

Gp80-LNGFR; NGF receptor; p75 ICD; CD271; NGFR; TNFRSF16;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 45183 Da

# **NGFR Antibody - Additional Information**

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human

p75 NGF Receptor

Description NGFR Low affinity receptor which can bind

to NGF, BDNF, NT-3, and NT-4. Can

mediate cell survival as well as cell death

of neural cells. Homodimer;

disulfide-linked. Interacts with p75NTR-associated cell death executor. Interacts with TRAF2, TRAF4, TRAF6, PTPN13 and RANBP9. Interacts through TRAF6 with SQSTM1 which bridges NGFR to NTRK1. Interacts with BEX1 and NGFRAP1/BEX3. Interacts with KIDINS220 and NTRK1. Rabbit IgG in phosphate buffered saline,

pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

#### **NGFR Antibody - Protein Information**

Name NGFR

**Synonyms TNFRSF16** 

Storage Condition and Buffer

# **Function**

Low affinity receptor which can bind to NGF, BDNF, NTF3, and NTF4. Forms a heterodimeric receptor with SORCS2 that binds the precursor forms of NGF, BDNF and NTF3 with high affinity, and has much lower affinity for mature NGF and BDNF (PubMed:<a

Tel: 858.875.1900 Fax: 858.875.1999

href="http://www.uniprot.org/citations/24908487" target=" blank">24908487</a>). Plays an important role in differentiation and survival of specific neuronal populations during development (By similarity). Can mediate cell survival as well as cell death of neural cells. Plays a role in the inactivation of RHOA (PubMed: <a href="http://www.uniprot.org/citations/26646181" target=" blank">26646181</a>). Plays a role in the regulation of the translocation of GLUT4 to the cell surface in adipocytes and skeletal muscle cells in response to insulin, probably by regulating RAB31 activity, and thereby contributes to the regulation of insulin- dependent glucose uptake (By similarity). Necessary for the circadian oscillation of the clock genes BMAL1, PER1, PER2 and NR1D1 in the suprachiasmatic nucleus (SCmgetaN) of the brain and in liver and of the genes involved in glucose and lipid metabolism in the liver (PubMed:<a href="http://www.uniprot.org/citations/23785138" target=" blank">23785138</a>). Together with BFAR negatively regulates NF-kappa-B and INK-related signaling pathways (PubMed: <a href="http://www.uniprot.org/citations/22566094" target="blank">22566094</a>).

#### **Cellular Location**

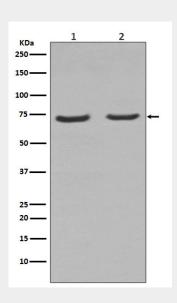

Cell membrane; Single-pass type I membrane protein. Cytoplasm. Perikaryon {ECO:0000250|UniProtKB:Q9Z0W1}. Cell projection, growth cone {ECO:0000250|UniProtKB:Q9Z0W1}. Cell projection, dendritic spine {ECO:0000250|UniProtKB:Q9Z0W1}

#### **NGFR Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

# **NGFR Antibody - Images**

Western blot analysis of NGFR expression in (1) C6 cell lysate; (2) PC-12 cell lysate.
