

### **Annexin A2 Antibody**

Rabbit mAb Catalog # AP91291

#### **Specification**

### **Annexin A2 Antibody - Product Information**

Application WB, IHC, FC, ICC

Primary Accession P07355
Reactivity Rat

Clonality Monoclonal

**Other Names** 

Annexin A2; Annexin II; Annexin-2; Calpactin I heavy chain; PAP-IV; Protein I; p36; ANXA2; ANX2;

ANX2L4; CAL1H; LPC2D; Annexin2; HEL S 270;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 38604 Da

### **Annexin A2 Antibody - Additional Information**

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human

**Annexin A2** 

Description Originally identified as a protein inhibitor

of phospholipase A2, annexin A2 has subsequently been shown to interact with

an array of protein and non-protein partners, including F-actin, spectrin, SNARE complexes, RNA, and virus

particles.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline,

pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

#### **Annexin A2 Antibody - Protein Information**

Name ANXA2

Synonyms ANX2, ANX2L4, CAL1H, LPC2D

## **Function**

Calcium-regulated membrane-binding protein whose affinity for calcium is greatly enhanced by anionic phospholipids. It binds two calcium ions with high affinity. May be involved in heat-stress response. Inhibits PCSK9-enhanced LDLR degradation, probably reduces PCSK9 protein levels via a translational mechanism but also competes with LDLR for binding with PCSK9 (PubMed:<a href="http://www.uniprot.org/citations/18799458" target="\_blank">18799458</a>, PubMed:<a href="http://www.uniprot.org/citations/22848640" target="\_blank">22848640</a>, PubMed:<a

href="http://www.uniprot.org/citations/24808179" target="\_blank">24808179</a>).

#### **Cellular Location**

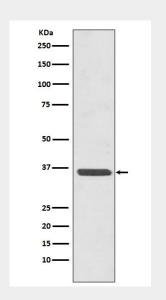

Secreted, extracellular space, extracellular matrix, basement membrane. Melanosome. Note=In the lamina beneath the plasma membrane. Identified by mass spectrometry in melanosome fractions from stage I to stage IV. Translocated from the cytoplasm to the cell surface through a Golgi-independent mechanism

### **Annexin A2 Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

# **Annexin A2 Antibody - Images**

Western blot analysis of Annexin A2 expression in HeLa cell lysate.
