

Complement C3 Antibody
Rabbit mAb
Catalog # AP91846**Specification**

Complement C3 Antibody - Product Information

Application	WB, FC, ICC
Primary Accession	P01024
Clonality	Monoclonal
Other Names	
AHUS5; ARMD9; ASP; C3; C3adesArg; C3bc; CPAMD1; Plp;	
Isotype	Rabbit IgG
Host	Rabbit
Calculated MW	187148 Da

Complement C3 Antibody - Additional Information

Purification	Affinity-chromatography
Immunogen	A synthesized peptide derived from human C3 / C3a
Description	C3 plays a central role in the activation of the complement system. Its processing by C3 convertase is the central reaction in both classical and alternative complement pathways. After activation C3b can bind covalently, via its reactive thioester, to cell surface carbohydrates or immune aggregates.
Storage Condition and Buffer	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Complement C3 Antibody - Protein Information**Name** C3**Synonyms** CPAMD1**Function**

C3 plays a central role in the activation of the complement system. Its processing by C3 convertase is the central reaction in both classical and alternative complement pathways. After activation C3b can bind covalently, via its reactive thioester, to cell surface carbohydrates or immune aggregates. [C3-beta-c]: Acts as a chemoattractant for neutrophils in chronic inflammation.

Cellular Location

Secreted.

Tissue Location

Plasma. The acylation stimulating protein (ASP) is expressed in adipocytes and released into the plasma during both the fasting and postprandial periods.

Complement C3 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
