

TGF beta 1 Antibody

Rabbit pAb Catalog # AP93213

Specification

TGF beta 1 Antibody - Product Information

Application WB, IHC
Primary Accession P01137
Reactivity Rat
Clonality Polyclonal

Other Names

CED; diaphyseal dysplasia 1, progressive; DPD1; TGF-beta 1; TGFB1;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 44341 Da

TGF beta 1 Antibody - Additional Information

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human

TGF beta 1

Description Multifunctional protein that controls

proliferation, differentiation and other functions in many cell types. Many cells synthesize TGFB1 and have specific receptors for it. It positively and

negatively regulates many other growth factors. It plays an important role in bone remodeling as it is a potent stimulator of osteoblastic bone formation, causing

chemotaxis, proliferation and

Storage Condition and Buffer differentiation in committed osteoblasts.

Rabbit IgG in phosphate buffered saline,

Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

TGF beta 1 Antibody - Protein Information

Name TGFB1 (HGNC:11766)

Synonyms TGFB

Function

Transforming growth factor beta-1 proprotein: Precursor of the Latency-associated peptide (LAP) and Transforming growth factor beta-1 (TGF-beta-1) chains, which constitute the regulatory and active subunit of TGF-beta-1, respectively.

Cellular Location

[Latency-associated peptide]: Secreted, extracellular space, extracellular matrix

Tissue Location

Highly expressed in bone (PubMed:11746498, PubMed:17827158). Abundantly expressed in articular cartilage and chondrocytes and is increased in osteoarthritis (OA) (PubMed:11746498, PubMed:17827158). Colocalizes with ASPN in chondrocytes within OA lesions of articular cartilage (PubMed:17827158)

TGF beta 1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture
