

**Anti-LAG3 / CD223 Reference Antibody (relatlimab)
Recombinant Antibody
Catalog # APR10029****Specification**

Anti-LAG3 / CD223 Reference Antibody (relatlimab) - Product Information

Application	FC, E, FTA
Primary Accession	P18627
Reactivity	Cynomolgus, Human
Clonality	Monoclonal
Isotype	IgG4SP
Calculated MW	145.58 KDa

Anti-LAG3 / CD223 Reference Antibody (relatlimab) - Additional Information**Target/Specificity**
LAG3 / CD223**Endotoxin**
< 0.001EU/ µg,determined by LAL method.**Conjugation**
Unconjugated**Expression system**
CHO Cell**Format**
Purified monoclonal antibody supplied in PBS, pH6.0, without preservative.This antibody is purified through a protein A column.**Anti-LAG3 / CD223 Reference Antibody (relatlimab) - Protein Information****Name** LAG3 ([HGNC:6476](#))**Synonyms** FDC**Function**
Lymphocyte activation gene 3 protein: Inhibitory receptor on antigen activated T-cells (PubMed:20421648, PubMed:7805750, PubMed:8647185). Delivers inhibitory signals upon binding to ligands, such as FGL1 (By similarity). FGL1 constitutes a major ligand of LAG3 and is responsible for LAG3 T-cell inhibitory function (By similarity). Following TCR engagement, LAG3 associates with CD3-TCR in the immunological synapse and directly inhibits T-cell activation (By similarity). May inhibit antigen-specific T-cell activation in synergy with PDCD1/PD-1, possibly by acting as a coreceptor for PDCD1/PD-1 (By similarity). Negatively regulates the proliferation, activation, effector function and homeostasis of both CD8(+) and

CD4(+) T-cells (PubMed:20421648, PubMed:7805750, PubMed:8647185). Also mediates immune tolerance: constitutively expressed on a subset of regulatory T-cells (Tregs) and contributes to their suppressive function (By similarity). Also acts as a negative regulator of plasmacytoid dendritic cell (pDCs) activation (By similarity). Binds MHC class II (MHC-II); the precise role of MHC-II-binding is however unclear (PubMed:8647185).

Cellular Location

[Lymphocyte activation gene 3 protein]: Cell membrane; Single-pass type I membrane protein

Tissue Location

Primarily expressed in activated T-cells and a subset of natural killer (NK) cells.

Anti-LAG3 / CD223 Reference Antibody (relatlimab) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Anti-LAG3 / CD223 Reference Antibody (relatlimab) - Images

Anti-LAG3 / CD223 Reference Antibody (relatlimab) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-LAG3 / CD223 Reference Antibody (relatlimab) is more than 100% ,determined by SEC-HPLC.

Immobilized human LAG3 His at 2 µg/mL can bind Anti-LAG3 / CD223 Reference Antibody (relatlimab) $EC_{50}=0.02812$ µg/mL.

Human LAG3 CHO cells were stained with Anti-LAG3 / CD223 Reference Antibody (relatlimab) and negative control protein respectively, washed and then followed by PE and analyzed with FACS, $EC_{78}=0.5464$ µg/mL

Relatlimab inhibited the tumor growth of MC38 on Human LAG3 mice. The result showed significant anti-tumor effects, with an tumor inhibition rate (TGI) of 53.8% at 10 mpk at D28.
