

#### Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP)

Recombinant Antibody Catalog # APR10998

# **Specification**

## Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP) - Product Information

Application
Primary Accession
Reactivity
Clonality
Isotype
Calculated MW

FC, E, FTA
P18509
Rat, Cynomolgus, Human
Monoclonal
IgG1
150 KDa

# Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP) - Additional Information

Target/Specificity PACAP38

**Endotoxin** 

< 0.001EU/ µg,determined by LAL method.

**Conjugation** Unconjugated

**Expression system** 

CHO Cell

#### **Format**

Purified monoclonal antibody supplied in PBS, pH6.0, without preservative. This antibody is purified through a protein A column.

#### Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP) - Protein Information

Name ADCYAP1 (HGNC:241)

#### **Function**

PACAP is a neuropeptide involved in diverse array of physiological processes through activating the PACAP subfamily of class B1 G protein-coupled receptors: VIP receptor 1 (VIPR1), VIP receptor 2 (VIPR2), and PACAP type I receptor (ADCYAP1R1) (PubMed:<a href="http://www.uniprot.org/citations/11175907" target="\_blank">11175907</a>, PubMed:<a href="http://www.uniprot.org/citations/23800469" target="\_blank">23800469</a>, PubMed:<a

href="http://www.uniprot.org/citations/32047270" target="\_blank">32047270</a>, PubMed:<a href="http://www.uniprot.org/citations/36385145" target="\_blank">36385145</a>). Exerts neuroprotective and general cytoprotective effects due to anti- apoptotic, anti-inflammatory, and antioxidant actions (PubMed:<a href="http://www.uniprot.org/citations/23800469" target="http://www.uniprot.org/citations/23800469" target="http://www.uniprot.org/citations/23800469"

 $target="\_blank">23800469</a>). Promotes neuron projection development through the RAPGEF2/Rap1/B-Raf/ERK pathway (PubMed:<a href="http://www.uniprot.org/citations/23800469" target="_blank">23800469</a>). In chromaffin cells, induces long-lasting increase of intracellular$ 

calcium concentrations and neuroendocrine secretion (By similarity). Involved in the control of glucose homeostasis, induces insulin secretion by pancreatic beta cells (By similarity). PACAP exists in two bioactive forms from proteolysis of the same precursor protein, PACAP27 and PACAP38, which differ by eleven amino acid residues in the C-terminus (PubMed:<a href="http://www.uniprot.org/citations/32047270" target="blank">32047270</a>).

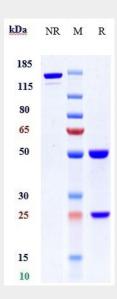

**Cellular Location** Secreted.

### Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP) - Protocols

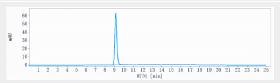

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

### Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP) - Images

Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 90%

The purity of Anti-PACAP38 Reference Antibody (Lilly patent anti-PACAP)is more than 95% , determined by SEC-HPLC.
