

**TTBK1 Antibody**  
Catalog # ASC10846**Specification**

---

**TTBK1 Antibody - Product Information**

Application	WB, IHC, IF
Primary Accession	<a href="#">Q5TCY1</a>
Other Accession	<a href="#">Q5TCY1</a> , <a href="#">97203020</a>
Reactivity	Human, Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Calculated MW	Predicted: 145, 151 kDa

Application Notes	<b>Observed: 140 kDa KDa</b> TTBK1 antibody can be used for detection of TTBK1 by Western blot at 1 µg/mL. Antibody can also be used for immunohistochemistry starting at 2.5 µg/mL. For immunofluorescence start at 20 µg/mL.
-------------------	---

**TTBK1 Antibody - Additional Information**Gene ID **84630****Target/Specificity**

TTBK1; Multiple isoforms of TTBK1 are known to exist. This antibody is predicted to not cross-react with TTBK2.

**Reconstitution & Storage**

TTBK1 antibody can be stored at 4°C for three months and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.

**Precautions**

TTBK1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**TTBK1 Antibody - Protein Information**

Name TTBK1

Synonyms BDTK, KIAA1855

**Function**

Serine/threonine kinase which is able to phosphorylate TAU on serine, threonine and tyrosine residues. Induces aggregation of TAU.

**Cellular Location**

Cytoplasm.

#### Tissue Location

Expressed in the brain, particularly in cortical and hippocampal neurons. Weakly expressed in spinal cord and testis. No expression in adipose tissue, bladder, cervix, colon, esophagus, heart, kidney, liver, lung, ovary, placenta, prostate, skeletal muscle, small intestine, spleen, testis, thymus, thyroid or trachea

#### TTBK1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

#### TTBK1 Antibody - Images

Western blot analysis of TTBK1 in Jurkat lysate with TTBK1 antibody at 1  $\mu$ g/mL.

Immunohistochemistry of TTBK1 in mouse brain tissue with TTBK1 antibody at 2.5  $\mu$ g/mL.

Immunofluorescence of TTBK1 in Human Brain tissue with TTBK1 antibody at 20 µg/mL.

### **TTBK1 Antibody - Background**

TTBK1 Antibody: Tau tubulin kinase (TTBK1) belongs to the casein kinase 1 superfamily and is involved in the phosphorylation of specific serine/threonine residues in paired helical filaments of the tau protein. It is specifically expressed in the brain and induces tau aggregation in human neuronal cells in a dose-dependent manner. TTBK1 levels have been found to be upregulated in the brains of Alzheimer's disease (AD) patients, and mice expressing human TTBK1 protein showed significant age-dependent memory impairment. These mice displayed increased levels of the CDK5 activators p25 and p35, and reduced levels of the NMDA receptor types 2B and 2D, suggesting that TTBK1 may play a role in memory dysfunction in AD patients.
