

Anti-INVERTASE (GOAT) Antibody Biotin Conjugated
Invertase Antibody Biotin Conjugated
Catalog # ASR4029**Specification**

Anti-INVERTASE (GOAT) Antibody Biotin Conjugated - Product Information

Host	Goat
Conjugate	Biotin
Target Species	Candida
Clonality	Polyclonal
Application	WB, E, I, LCI
Application Note	Anti-Invertase antibody has been tested by western blot and is suitable to be assayed against 1.0 ug of Invertase in a standard capture ELISA using Peroxidase Conjugated Streptavidin #S000-03 and ABTS (2,2'-azino-bis-[3-ethylbenthiiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:4,000 to 1:20,000 of the reconstitution concentration is suggested for this product.
Physical State	Lyophilized
Buffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Immunogen	Invertase [Candida species]
Reconstitution Volume	100 µL
Reconstitution Buffer	Restore with deionized water (or equivalent)
Stabilizer	10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free
Preservative	0.01% (w/v) Sodium Azide

Anti-INVERTASE (GOAT) Antibody Biotin Conjugated - Additional Information**Other Names**

3640338

Purity

Anti-Invertase antibody is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Biotin, anti-Goat Serum as well as purified and partially purified Invertase [Candida species]. Cross reactivity against Invertase from other sources is unknown.

Storage Condition

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after

standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Precautions Note

This product is for research use only and is not intended for therapeutic or diagnostic applications.

Anti-INVERTASE (GOAT) Antibody Biotin Conjugated - Protein Information

Name SUC1

Cellular Location

[Isoform Intracellular]: Cytoplasm.

Anti-INVERTASE (GOAT) Antibody Biotin Conjugated - Protocols

Provided below are standard protocols that you may find useful for product applications.

Anti-INVERTASE (GOAT) Antibody Biotin Conjugated - Images**Anti-INVERTASE (GOAT) Antibody Biotin Conjugated - Background**

Anti-Invertase antibody recognizes invertase which hydrolyzes the alpha-1,4-glycosidic bond between alpha-D-glucose and beta-D-fructose of sucrose. Bees use invertase to convert nectar to honey. In the confectionary industry, yeast-derived invertase is used to hydrolyze sucrose to glucose and fructose as fructose is more sweeter and less prone to crystallization. Anti-Invertase antibody is ideal for investigators interested in Metabolism and Cell Biology.
