

MMP23B Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a partial recombinant MMP23B.

Catalog # AT2880a

Specification

MMP23B Antibody (monoclonal) (M01) - Product Information

Application	E
Primary Accession	O75900
Other Accession	NM_006983
Reactivity	Human
Host	mouse
Clonality	Monoclonal
Isotype	IgG1 Kappa
Calculated MW	43935

MMP23B Antibody (monoclonal) (M01) - Additional Information

Gene ID 8510

Other Names

Matrix metalloproteinase-23, MMP-23, 3424-, Femalysin, MIFR-1, Matrix metalloproteinase-21, MMP-21, Matrix metalloproteinase-22, MMP-22, Matrix metalloproteinase-23, soluble form, MMP23A, MMP21

Target/Specificity

MMP23B (NP_008914, 241 a.a. ~ 340 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.

Format

Clear, colorless solution in phosphate buffered saline, pH 7.2 .

Storage

Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Precautions

MMP23B Antibody (monoclonal) (M01) is for research use only and not for use in diagnostic or therapeutic procedures.

MMP23B Antibody (monoclonal) (M01) - Protocols

Provided below are standard protocols that you may find useful for product applications.

MMP23B Antibody (monoclonal) (M01) - Background

This gene (MMP23B) encodes a member of the matrix metalloproteinase (MMP) family, and it is part of a duplicated region of chromosome 1p36.3. Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. This gene belongs to the more telomeric copy of the duplicated region.
