YWHAG Antibody (monoclonal) (M01)

Mouse monoclonal antibody raised against a partial recombinant YWHAG.
Catalog # AT4559a

Specification

YWHAG Antibody (monoclonal) (M01) - Product Information

Application	**E**
Primary Accession	P61981
Other Accession	NM_012479
Reactivity	**Human**
Host	**mouse**
Clonality	**Monoclonal**
Isotype	**IgG2a lambda**
Calculated MW	**28303**

YWHAG Antibody (monoclonal) (M01) - Additional Information

Gene ID 7532

Other Names
14-3-3 protein gamma, Protein kinase C inhibitor protein 1, KCIP-1, 14-3-3 protein gamma, N-terminally processed, YWHAG

Target/Specificity
YWHAG (NP_036611, 67 a.a. ~ 166 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.

Format
Clear, colorless solution in phosphate buffered saline, pH 7.2 .

Storage
Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Precautions
YWHAG Antibody (monoclonal) (M01) is for research use only and not for use in diagnostic or therapeutic procedures.

YWHAG Antibody (monoclonal) (M01) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation

10320 Camino Santa Fe, Suite G

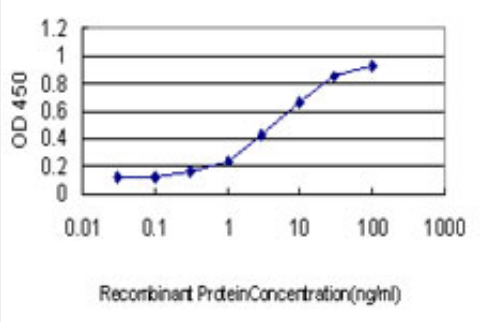
- Flow Cytomety
- Cell Culture

YWHAG Antibody (monoclonal) (M01) - Images



Detection limit for recombinant GST tagged YWHAG is approximately 0.3ng/ml as a capture antibody.

YWHAG Antibody (monoclonal) (M01) - Background

This gene product belongs to the 14-3-3 family of proteins which mediate signal transduction by binding to phosphoserine-containing proteins. This highly conserved protein family is found in both plants and mammals, and this protein is 100% identical to the rat ortholog. It is induced by growth factors in human vascular smooth muscle cells, and is also highly expressed in skeletal and heart muscles, suggesting an important role for this protein in muscle tissue. It has been shown to interact with RAF1 and protein kinase C, proteins involved in various signal transduction pathways.
