

LYZ Antibody (C-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AW5031**Specification**

LYZ Antibody (C-term) - Product Information

Application	WB, IHC-P, IHC,E
Primary Accession	P61626
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	H=17 KDa
Isotype	Rabbit IgG
Antigen Source	HUMAN

LYZ Antibody (C-term) - Additional Information**Gene ID** 4069**Antigen Region**
119-154**Other Names**
Lysozyme C, 4-beta-N-acetylmuramidase C, LYZ, LZM**Dilution**
WB~~1:2000
IHC-P~~1:25
IHC~~1:1000**Target/Specificity**

This LYZ antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 119-154 amino acids from the C-terminal region of human LYZ.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

LYZ Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

LYZ Antibody (C-term) - Protein Information

Name LYZ

Synonyms LZM

Function

Lysozymes have primarily a bacteriolytic function; those in tissues and body fluids are associated with the monocyte-macrophage system and enhance the activity of immunoagents.

Cellular Location

Secreted.

LYZ Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

LYZ Antibody (C-term) - Images

Western blot analysis of lysates from HepG2, THP-1, WiDr cell line and human spleen tissue lysate(from left to right), using LYZ Antibody (C-term)(Cat. #AW5031). AW5031 was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L(HRP) at 1:10000 dilution was used as the secondary antibody.

All lanes : Anti-LYZ Antibody (C-term) at 1:2000 dilution Lane 1: WiDr whole cell lysate Lane 2: THP-1 whole cell lysate Lane 3: HepG2 whole cell lysate Lane 4: Human spleen lysate Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 17 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

All lanes : Anti-LYZ Antibody (C-term) at 1:2000 dilution Lane 1: THP-1 whole cell lysate Lane 2: HepG2 whole cell lysate Lane 3: Human spleen lysate Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 15 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

Immunohistochemical analysis of paraffin-embedded M. small intestine section using LYZ Antibody (C-term)(Cat#AW5031). AW5031 was diluted at 1:100 dilution. A peroxidase-conjugated goat anti-rabbit IgG at 1:400 dilution was used as the secondary antibody, followed by DAB staining.

Immunohistochemical analysis of paraffin-embedded R. small intestine section using LYZ Antibody (C-term)(Cat#AW5031). AW5031 was diluted at 1:100 dilution. A peroxidase-conjugated goat anti-rabbit IgG at 1:400 dilution was used as the secondary antibody, followed by DAB staining.

Immunohistochemical analysis of paraffin-embedded H. small intestine section using LYZ Antibody (C-term)(Cat#AW5031). AW5031 was diluted at 1:100 dilution. A peroxidase-conjugated goat anti-rabbit IgG at 1:400 dilution was used as the secondary antibody, followed by DAB staining.

AW5031 staining LYZ in human tonsil tissue sections by Immunohistochemistry (IHC-P - paraformaldehyde-fixed, paraffin-embedded sections). Tissue was fixed with formaldehyde and blocked with 3% BSA for 0.5 hour at room temperature; antigen retrieval was by heat mediation with a citrate buffer (pH6). Samples were incubated with primary antibody (1/25) for 1 hours at 37°C. A undiluted biotinylated goat polyvalent antibody was used as the secondary antibody.

Immunohistochemical analysis of paraffin-embedded Human spleen section using Pink1(Cat#AW5031). AW5031 was diluted at 1:1000 dilution. A undiluted biotinylated goat polyvalent antibody was used as the secondary, followed by DAB staining.

LYZ Antibody (C-term) - Background

Lysozymes have primarily a bacteriolytic function; those in tissues and body fluids are associated with the monocyte- macrophage system and enhance the activity of immunoagents.
