

GST Tag Antibody
Purified Mouse Monoclonal Antibody (Mab)
Catalog # AW5668

Specification

GST Tag Antibody - Product Information

Application	WB,E
Host	Mouse
Clonality	Monoclonal
Calculated MW	45-50KD KDa
Isotype	Mouse IgG1
Antigen Source	HUMAN

GST Tag Antibody - Additional Information

Antigen Region
NA

Other Names
Glutathione S-transferase

Dilution
WB~~1:1000

Target/Specificity
Purified recombinant GST fusion protein was used to produced this monoclonal antibody.

Storage
Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions
GST Tag Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

GST Tag Antibody - Background

Glutathione S-transferase (GST) was originally cloned from parasite *Schistosoma japonicum* and it is now a widely used protein fusion partner. Vectors containing GST Tag have been developed for both prokaryotic and eukaryotic systems. The GST fusion proteins are easily purified from cell lysates by affinity chromatography using Glutathione Sepharose 4B to elute out the GST fusion protein from the column with a denaturing

form of glutathione. Using the Abgent anti-GST antibody provides a simple solution to detect the expression of GST fusion proteins in cells.
