

LRP10 Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP13153a**Specification**

LRP10 Antibody (N-term) Blocking Peptide - Product InformationPrimary Accession [Q7Z4F1](#)**LRP10 Antibody (N-term) Blocking Peptide - Additional Information**

Gene ID 26020

Other Names

Low-density lipoprotein receptor-related protein 10, LRP-10, LRP10

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP13153a was selected from the N-term region of LRP10. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

LRP10 Antibody (N-term) Blocking Peptide - Protein Information

Name LRP10

Function

Probable receptor, which is involved in the internalization of lipophilic molecules and/or signal transduction. May be involved in the uptake of lipoprotein APOE in liver (By similarity).

Cellular Location

Membrane; Single-pass type I membrane protein. Membrane, coated pit

Tissue Location

Expressed in blood leukocyte, lung, placenta, small intestine, liver, kidney, spleen, thymus, colon, skeletal muscle and heart.

LRP10 Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
