

Mouse Npr1 Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP14073a

Specification

Mouse Npr1 Antibody (N-term) Blocking peptide - Product Information

Primary Accession [P18293](#)

Mouse Npr1 Antibody (N-term) Blocking peptide - Additional Information

Gene ID 18160

Other Names

Atrial natriuretic peptide receptor 1, Atrial natriuretic peptide receptor type A, ANP-A, ANPR-A, NPR-A, Guanylate cyclase A, GC-A, Npr1, Npra

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP14073a was selected from the N-term region of Mouse Npr1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

Mouse Npr1 Antibody (N-term) Blocking peptide - Protein Information

Name Npr1

Synonyms Npra

Function

Receptor for the atrial natriuretic peptide NPPA/ANP and the brain natriuretic peptide NPPB/BNP which are potent vasoactive hormones playing a key role in cardiovascular homeostasis. Has guanylate cyclase activity upon binding of the ligand.

Cellular Location

Membrane; Single-pass type I membrane protein.

Mouse Npr1 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
