

**Mouse Tp53rk Antibody (Center) Blocking Peptide**  
Synthetic peptide  
Catalog # BP14294c

### Specification

---

#### Mouse Tp53rk Antibody (Center) Blocking Peptide - Product Information

Primary Accession [Q99PW4](#)

#### Mouse Tp53rk Antibody (Center) Blocking Peptide - Additional Information

##### Other Names

TP53-regulating kinase, Atypical serine/threonine protein kinase Tp53rk, EKC/KEOPS complex subunit Tp53rk, 36--, Nori-2, p53-related protein kinase, Tp53rk, Prpk, Trp53rk

##### Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

##### Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

##### Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

#### Mouse Tp53rk Antibody (Center) Blocking Peptide - Protein Information

Name Tp53rkb {ECO:0000305}

##### Function

Component of the EKC/KEOPS complex that is required for the formation of a threonylcarbamoyl group on adenosine at position 37 (t(6)A37) in tRNAs that read codons beginning with adenine. The complex is probably involved in the transfer of the threonylcarbamoyl moiety of threonylcarbamoyl-AMP (TC-AMP) to the N6 group of A37. TP53RK has ATPase activity in the context of the EKC/KEOPS complex and likely plays a supporting role to the catalytic subunit OSGEP (By similarity). Atypical protein kinase that phosphorylates 'Ser-15' of p53/TP53 protein and may therefore participate in its activation (By similarity).

##### Cellular Location

Nucleus {ECO:0000250|UniProtKB:Q96S44}.

#### Mouse Tp53rk Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

#### Mouse Tp53rk Antibody (Center) Blocking Peptide - Images

**Mouse Tp53rk Antibody (Center) Blocking Peptide - Background**

Tp53rk is a protein kinase that phosphorylates 'Ser-15' of p53/TP53 protein and may therefore participate in its activation (By similarity).
