

GRASP Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP16517b**Specification**

GRASP Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [Q7Z6J2](#)**GRASP Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 160622**Other Names**

General receptor for phosphoinositides 1-associated scaffold protein, GRP1-associated scaffold protein, GRASP

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

GRASP Antibody (C-term) Blocking Peptide - Protein Information**Name** TAMALIN ([HGNC:18707](#))**Synonyms** GRASP**Function**

Plays a role in intracellular trafficking and contributes to the macromolecular organization of group 1 metabotropic glutamate receptors (mGluRs) at synapses.

Cellular Location

Cytoplasm, perinuclear region {ECO:0000250|UniProtKB:Q8R4T5}. Cell membrane {ECO:0000250|UniProtKB:Q8R4T5}; Peripheral membrane protein {ECO:0000250|UniProtKB:Q8R4T5}; Cytoplasmic side {ECO:0000250|UniProtKB:Q8R4T5}. Postsynaptic cell membrane {ECO:0000250|UniProtKB:Q8R4T5}

GRASP Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

GRASP Antibody (C-term) Blocking Peptide - Background

GRASP plays a role in intracellular trafficking and contributes to the macromolecular organization of group 1 metabotropic glutamate receptors (mGluRs) at synapses (By similarity).
