

NPY1R Antibody (Center) Blocking Peptide
Synthetic peptide
Catalog # BP18805c

Specification

NPY1R Antibody (Center) Blocking Peptide - Product Information

Primary Accession [P25929](#)

NPY1R Antibody (Center) Blocking Peptide - Additional Information

Gene ID 4886

Other Names

Neuropeptide Y receptor type 1, NPY1-R, NPY1R, NPYR, NPY1

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

NPY1R Antibody (Center) Blocking Peptide - Protein Information

Name NPY1R

Synonyms NPYR, NPY1

Function

Receptor for neuropeptide Y and peptide YY. The rank order of affinity of this receptor for pancreatic polypeptides is NPY > [Pro-34] PYY, PYY and [Leu-31, Pro-34] NPY > NPY (2-36) > [Ile-31, Gln-34] PP and PYY (3-36) > PP > NPY free acid.

Cellular Location

Cell membrane; Multi-pass membrane protein.

NPY1R Antibody (Center) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

NPY1R Antibody (Center) Blocking Peptide - Background

Neuropeptide Y (NPY; MIM 162640) is one of the most abundant neuropeptides in the mammalian nervous system and exhibits a diverse range of important physiologic activities, including effects on psychomotor activity, food intake, regulation of central endocrine secretion, and potent vasoactive effects on the cardiovascular system. Two major subtypes of NPY (Y1 and Y2) have been defined by pharmacologic criteria. NPY receptors, such as NPY1R, have been identified in a variety of tissues, including brain, spleen, small intestine, kidney, testis, placenta, and aortic smooth muscle (Herzog et al., 1992 [PubMed 1321422]).
